

Serial No. 10/051,807

Election and Amendment dated August 5, 2003

Reply to Election of July 14, 2003

Amendments to the Claims:

This claims listing replaces all prior versions and listings of claims.

Listing of Claims:

1(original). A blasting device, comprising:

- a) a blasting medium supply unit;
- b) a blasting gun; and
- c) an extension provided on the blasting gun, the extension including a sufficiently clear portion so that a user may view a surface being blasted, in use.

2(original). A blasting device as in Claim 1, wherein:

- a) the portion of the extension includes a substantially clear pipe.

3(original). A blasting device as in Claim 2, wherein:

- a) the substantially clear plastic pipe is colorless.

4(original). A blasting device, comprising:

- a) a blasting medium supply unit; and
- b) the blasting medium supply unit including at least two(2) blasting medium supply tanks.

5(original). A blasting device as in Claim 4, wherein:

a) a switching valve is provided for switching between the at least two(2) blasting tanks, for alternately supplying blasting medium from each of the two(2) supply tanks.

6(original). A blasting device as in Claim 4, wherein:

a) a recovery hose is provided for recovering blasting medium, in use; and

b) a switching valve is provided for directing recovered blasting medium to alternate one of the at least two(2) blasting medium supply cylinders.

7(original). A blasting device as in Claim 6, wherein:

a) A blasting gun is connected to the blasting medium supply unit.

8(original). A blasting device as in Claim 7, wherein:

a) A portion of the blasting gun is sufficiently clear so that a user may view a substrate being blasted, in use.

9(original). A blasting device as in Claim 8, wherein:

a) the portion of the extension includes a substantially clear pipe.

10(original). A blasting device as in Claim 9, wherein:

- a) the substantially clear plastic pipe is colorless.

11(newly presented). A blasting device, comprising:

- a) a blasting medium supply unit;
- b) the blasting medium supply unit including at least two(2) blasting medium supply tanks;
- c) a blasting gun fluidly connected to the blasting medium supply unit; and
- d) an extension provided on the blasting gun, the extension including a sufficiently clear portion so that a user may view a surface being blasted, in use.

12(newly presented). A blasting device as in Claim 11, wherein:

- a) a switching valve is provided for switching between the at least two(2) blasting tanks, for alternately supplying blasting medium from each of the two(2) supply tanks.

13(newly presented). A blasting device as in Claim 11, wherein:

- a) a recovery hose is provided for recovering blasting medium, in use; and
